

3Rs refers students to Planned Parenthood
MULTIPLE times in the curriculum

www.PlannedParenthood.org/Learn/Glossary

Beginning in the Sixth Grade with 11 and 12 year olds, the 3Rs curriculum mentions or refers students to Planned Parenthood or its website more than 24 times. Numerous lessons involve classroom visits to Planned Parenthood's website, some involving small groups of self-supervised children.

Located at the top of Planned Parenthood's website, under "Learn," (a word designed to lure school-age children) the very first term is "Abortion," with no mention of "Adoption," thus violating ARS § 15-115(A)-(B).

On that same website drop-down, Planned Parenthood's "[Glossary A-Z](#)" also does not contain the word "adoption," or "pro-life," but contains "anti-choice" and "pro-choice."
