U.S. States Defending Human Life in the Womb

(Updated May 6, 2025)

On June 24, 2022, the U.S. Supreme Court overturned the 1973 *Roe v. Wade* and 1992 *Planned Parenthood v. Casey* decisions ruling that the Constitution does not implicitly protect the right to abortion. The High Court sent the abortion issue back to the individual states to regulate.

Many states anticipated the reversal of *Roe v. Wade*, and enacted trigger laws/bans that took effect after the *Dobbs v. Jackson Women's Health Organization* decision overturned *Roe v. Wade*. In addition, some states had pre-*Roe v. Wade* laws reinstated. Since then, many other states have either enacted laws prohibiting abortion at various gestational periods or enshrined abortion as a state constitutional "right." In addition, courts have blocked enforcement of some pro-life laws while legal challenges are adjudicated.

By the numbers:

Near-total abortion bans: 17

- 13 in effect / 4 states blocked amid litigation

Six-week fetal heartbeat laws: 4 (all in effect)

12-week gestational ban: 2 (all in effect)

15-week gestational ban: 2

- 1 in effect / 1 blocked amid litigation

18-week gestational ban: 1 (in effect)

20-week gestational ban: 2 (all in effect)

22-week gestational ban: 1 (in effect)

***Viability ban (about 24 weeks): 16** (all in effect)

28-week gestational ban: 1 (in effect)

No abortion restrictions: 9

***Viability:** the ability of a baby to survive outside the womb. According to the [American College of Obstetricians and Gynecologists](#), doctors typically consider the 24-week mark to be the point of potential viability.

Defending Unborn Life: 50 States in Detail

Alabama

Near-Total Ban (After Conception)

In effect: "[The Alabama Human Life Protection Act](#)"

The law bans abortion after conception, with several exceptions. The exceptions include medical emergencies, ectopic pregnancies, lethal anomalies where the child would not survive shortly after birth or would be stillborn, and serious health risks to the life of the unborn child's mother. The law makes it a felony for health care professionals to perform or attempt an abortion.

Parental Consent/Notice Required for a Minor's Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail
Consent required	Yes	Yes	Yes	No
Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. In Arkansas, infants who survive abortions have the right to medical care, and the state requires health care and hospitalization for babies born alive during an abortion.				

Alaska

Abortion is a state constitutional "right" and is legal at any stage of pregnancy.

The Alaska Supreme Court [ruled](#) in 1997 that abortion is a legal right under the state's constitution.

Parental Consent/Notice Required for a Minor's Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail
Consent required	Yes	No	Yes	Yes
Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: None				

Arizona

Abortion is a state constitutional “right” up to viability (about 24 weeks), as well as after viability in cases to preserve the life and health of the unborn child’s mother.

In 2024, Arizona voters approved a state constitutional amendment to enshrine a “right” to abortion throughout pregnancy in the state. The amendment nullified the state’s previous 15-week abortion ban.

[State Constitutional Amendment](#)

“Creates a fundamental right to abortion (in Arizona). Limits the state’s ability to interfere with that right before fetal viability. After fetal viability, abortions are allowed when necessary to protect the life or health of the pregnant individual. Prohibits laws penalizing a person for assisting an individual obtaining an abortion.”

Consent required	Yes	Yes	Yes	No
Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. In Arizona, infants who survive abortions have the right to medical care, and the state requires health care and hospitalization for babies born alive during an abortion.				
<i>All of these laws or regulations may be subject to change due to the language used in the 2024 Arizona Abortion Access Act, which guarantees a “right” to abortion in the state before and after viability where the state is limited in interfering with that “right.”</i>				

Arkansas

Near Total Ban (After Conception)

In effect: [“Arkansas Unborn Child 21 Protection Act”](#)

The law bans abortion after conception, with exceptions for medical emergencies that threaten the life of the unborn child’s mother. The law makes it a felony to perform or attempt an abortion.

Coerced Abortion

[HB 1551](#)

Makes tricking someone into taking an abortion-inducing drug a felony of criminal abortion.

Parental Consent/Notice Required for a Minor's Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail

Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. In Arkansas, infants who survive abortions have the right to medical care, and the state requires health care and hospitalization for babies born alive during an abortion.				

California

Abortion is a state constitutional “right” in the state up to viability (about 24 weeks), as well as after viability in cases to preserve the life and health of the unborn child’s mother

In 2022, California voters approved a state constitutional amendment to enshrine a “right” to abortion in the state throughout pregnancy.

[State Constitutional Amendment](#)

In California, a pregnancy becomes [viable](#) when a doctor determines that the child could live outside the uterus without extreme medical measures. A baby is typically considered viable at about 24 weeks. Abortions in California can take place after viability in cases of medical emergencies or endangerment to the life of the unborn child’s mother.

None required	No	No	Yes	No
Born-Alive Protections: Yes. In California, infants who survive abortions have the right to medical care, but the state has no health care or hospitalization requirements.				

Colorado

Under state [law](#), abortion is a “fundamental right” and is legal and unrestricted at any stage of pregnancy.

In 2024, Colorado voters approved a state constitutional amendment that enshrines a “right” to abortion in the state up until birth for any reason.

[State Constitutional Amendment](#)

In Colorado, “the government shall not deny, impede, or discriminate against the exercise of that right, including prohibiting health insurance coverage for abortion.”

Connecticut

Abortion is banned at viability (about 24 weeks), with exceptions.

In effect: [State Law 19a-600](#)

In Connecticut, a pregnancy becomes [viable](#) when the child could live outside the womb. A baby is typically considered viable at about 24-weeks. Exceptions for abortion after viability consist of medical situations to preserve the life or health of the unborn child’s mother.

Parental Consent/Notice Required for a Minor’s Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail
None required	Yes for surgical abortions. No for chemical or aspiration abortions.	No	Yes	Yes
Born-Alive Protections: None				

Delaware

Abortion is banned at viability (about 24 weeks), with exceptions.

In effect: [State Law 24-27-1790](#)

In Delaware, a baby is typically considered viable at about 24 weeks. Abortions can take place after viability to preserve the life or health of the unborn child’s mother, or for a fetal abnormality for which there a baby’s sustained survival outside the uterus without extraordinary medical measures is unlikely.

Notice required	No	No	Yes	Yes
Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. Delaware requires health care for infants born alive during an abortion.				

Florida

***6-Week “[Heartbeat Law](#)” and *15-Week Ban (simultaneously enforced):**

In effect: “[The Heartbeat Protection Act](#)”

The law bans abortion after six weeks gestational age with exceptions in cases of rape, incest, human trafficking, to preserve the life or health of the unborn child’s mother, or for fatal fetal anomalies.

In effect: [HB 5](#)

The law bans abortion after 15 weeks gestational age, with exceptions to preserve the life or health of the unborn child’s mother, or for fatal fetal abnormalities. The law makes it a felony to perform or attempt an abortion.

***The Florida Supreme Court ruled 6-1 there is no right to abortion in the Florida Constitution allowing both the 6-week heartbeat law and 15-week ban to be enforced.**

Parental Consent/Notice Required for a Minor’s Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail
Consent required	Yes	Yes	Yes	No

Born-Alive Protections: Yes. In Florida, infants who survive abortions have the right to medical care, and the state requires health care and hospitalization for babies born alive during an abortion.				

Georgia

*6-Week “Heartbeat Law”

In effect: [“Living Infants Fairness and Equality \(LIFE\) Act”](#)

Georgia’s LIFE Act bans abortion after a detectable human heartbeat, which can be detected as early as six weeks gestational age. The law’s exceptions include medical emergencies to preserve the life and health of the mother, or a fatal fetal anomaly where an unborn child is medically determined to have a profound and irremediable congenital or chromosomal anomaly that is incompatible with sustaining life after birth. The law also allows abortion up to 20 weeks for rape or incest if a police report was filed.

***The Georgia Supreme Court ruled the law can stay in effect while litigation continues.**

Idaho

*Near Total Ban (After Conception)

In effect: [SB 1385](#)

The law bans abortion after conception, with exceptions to prevent the death of the unborn child's mother, and in cases of rape or incest that has been reported to law enforcement. The law makes it a felony to perform or attempt an abortion.

***The U.S. Supreme Court has allowed the law to remain in effect while Ninth Circuit Court of Appeals further adjudicates the case. In January 2023, the Idaho Supreme Court ruled there is no state constitutional right to abortion.**

Abortion Trafficking Ban

Blocked: [HB 242](#)

The law would make it a felony for any adult who helps a minor undergo an abortion in another state without parental consent. The law is temporarily blocked while a legal challenge is adjudicated.

Parental Consent/Notice Required for a Minor's Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail

Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. Iowa requires health care for infants born alive during an abortion.				

Kansas

Abortion is banned after 22 weeks of gestation, with exceptions.

The Kansas Supreme Court [ruled](#) in April 2019 that the Kansas Constitution protects abortion.

In effect: [Kan. Stat. 65-6703](#)

In Kansas, a baby is typically considered viable at about 22 weeks. Abortions can take place after viability to preserve the life or health of the unborn child’s mother.

Parental Consent/Notice Required for a Minor’s Abortion	Abortions Must Be Performed by a Physician	Ultrasound Required Before an Abortion	Conscience Protections for Health Care Providers to Refuse Participation in Abortion	State Allows Abortion Pill Dispensed Via Telehealth or by Mail

Judicial Bypass: Yes. A minor may petition a judge to override parental involvement in an abortion.				
Born-Alive Protections: Yes. Kansas requires health care and hospitalization for infants born alive during an abortion.				

Kentucky

Near Total Ban (After Conception)

In effect: [HB 148](#)

The law bans abortion after conception, with the exception to preserve the life or health of the unborn child’s mother. The law also makes it a felony to perform or attempt an abortion.

In effect: [HB 90](#)

The law defines the act of abortion as the “intent” to kill the unborn child. However, this law separates the act of abortion from the act of saving the life and health of the mother in medical emergencies. The law considers the act of “separating a pregnant woman from her unborn child” to save her life or health without the intent of killing the unborn child as not an abortion. The law also clarifies a list of medical emergencies where a licensed physician can separate a mother from her unborn child.

Born-Alive Protections: Yes. In Maine, infants who survive abortions have the right to medical care, and the state requires health care for babies born alive during an abortion.				

Maryland

Abortion is a state constitutional “right” and is legal and unrestricted at any stage of pregnancy.

In 2024, a majority of Maryland voters approved a state constitutional amendment to protect abortion throughout pregnancy in the state. The amendment nullified the state’s previous ban at viability.

[State Constitutional Amendment](#)

In Maryland, the amendment “confirms an individual's fundamental right to reproductive freedom, including but not limited to the ability to make and effectuate decisions to prevent, continue, or end the individual's pregnancy, and provides the State may not, directly or indirectly, deny, burden, or abridge the right unless justified by a compelling State interest achieved by the least restrictive means.”

Missouri

Abortion is a state constitutional “right” up to viability (about 24 weeks), as well as after viability in cases to preserve the life and health of the unborn child’s mother.

In 2024, a majority of Missouri voters approved a state constitutional amendment enshrining a “right” to abortion in the state. The amendment made the state’s previous near-total abortion ban unenforceable.

[State Constitutional Amendment](#)

In Missouri, the amendment establishes “a right to make decisions about reproductive health care, including abortion and contraceptives, with any governmental interference of that right presumed invalid; removes Missouri’s ban on abortion...and allows abortion to be restricted or banned after Fetal Viability except to protect the life or health of the woman.”

<i>All of these laws or regulations may be subject to change due to the language used in Missouri’s 2024 “Right to Reproductive Freedom Initiative,” which guarantees a “right” to abortion in the state before and after viability with any “governmental interference presumed invalid.”</i>				

Montana

Abortion is a state constitutional “right” up to viability (about 24 weeks), as well as after viability in cases to preserve the life and health of the unborn child’s mother.

In 2024, a majority of Montana voters approved a state constitutional amendment enshrining a “right” to abortion in the state. Previously, the Montana Supreme Court had blocked a 20-week abortion ban, parental consent requirements, a mandatory ultrasound law, and restrictions on the abortion pill.

State Constitutional Amendment

In Montana, the amendment establishes “a right to make and carry out decisions about one’s own pregnancy, including the right to abortion. It would prohibit the government from denying or burdening the right to abortion before fetal viability. It would also prohibit the government from denying or burdening access to an abortion when a treating healthcare professional determines it is medically indicated to protect the pregnant patient’s life or health. Constitutional Initiative 128 prevents the government from penalizing patients, healthcare providers, or anyone who assists someone in exercising their right to make and carry out voluntary decisions about their pregnancy.”

Nebraska

12-Week Ban

In effect: [“The Preborn Child Protection Act”](#)

The law bans abortion after 12 weeks gestational age. Abortions may be performed after 12 weeks in cases of medical emergencies, sexual assault, or incest.

In 2024, Nebraska voters approved a state constitutional amendment that essentially codified the “Preborn Child Protection Act” into the state constitution.

[State Constitutional Amendment](#)

The “Protect Women and Children” amendment states, “Except when a woman seeks an abortion necessitated by a medical emergency or when the pregnancy results from sexual assault or incest, unborn children shall be protected from abortion in the second and third trimesters.”

Sanctuary Cities and Counties Protecting the Unborn:

The [Sanctuary Cities of the Unborn](#) (SCFTU) Initiative is a pro-life movement with a goal of banning abortion across the nation. Founded by Mark Lee Dickson, Director of Right to Life of East Texas, the initiative helps citizens at the local level adopt city or county ordinances outlawing abortion within their own local government jurisdictions.

SCFTU ordinances are tailored for each municipality and depending on local circumstances, may include provisions for banning abortion clinics from opening, abortion-inducing drugs, abortion trafficking, handling of aborted baby remains, and more.

The SCFTU initiative [states](#) they have a process for municipalities wanting to become a sanctuary for the unborn and are “willing to come alongside” and help since ordinances need to be “tailored to specifically fit” each area. Visit the SCFTU [Website](#) for how to get started with an online petition.
